## Overview

CompTIA PenTest+ is the most comprehensive exam covering all penetration testing stages. Unlike other penetration testing exams that only cover a portion of stages with essay questions and hands-on, PenTest+ uses both performance-based and knowledge-based questions to ensure all stages are addressed.

- PenTest+ is the only exam on the market to include all aspects of vulnerability management. It not only covers hands-on vulnerability assessment, scanning, and analysis, but also includes planning, scoping, and managing weaknesses, not just exploiting them.
- PenTest+ is the most current penetration testing exam covering the latest techniques against expanded attack surfaces. It is a unique exam that requires a candidate to demonstrate the most relevant pen testing skills for the cloud, hybrid environments, web applications, customized systems (IoT), and traditional on-premises.
