Overview

Data Literacy Basics for Everyone is an engaging three-day, hands-on course that introduces you to the fundamentals of data literacy, tailored for those new to the field. Led by an experienced expert, this course provides a clear, approachable, and professional pathway into the world of data. You'll start by understanding the diverse data landscape, learning about qualitative and quantitative data, and exploring the significance of data in modern business contexts. Ethical considerations in data use are also a key focus, ensuring you are prepared to handle data with integrity and awareness. Throughout the course, you'll develop a thorough understanding of the Four Levels of Analytics, encompassing Descriptive, Diagnostic, Predictive, and Prescriptive Analytics. This journey will equip you with the skills to interpret data, understand trends, and communicate insights effectively. Emphasizing practical applications, the course enhances your skills in data visualization and storytelling, enabling you to present data in compelling and informative ways. The final day brings everything together, teaching you how to apply your new skills in real-world scenarios. You'll leave the course not only with a foundational understanding of data literacy but also with the ability to apply data-driven strategies effectively in your professional environment, making you a valuable asset in any data-focused role.
