## Overview

Fast Track to Java Programming for OO Developers is a four-day, fast-paced hands-on course that helps experienced object oriented developers (coming from C++, C#, etc.) quickly get up and running with programming in Java, using the latest coding skills. You'll exit the course well-prepared to tackle real-world programming tasks, equipped with an in-depth knowledge of Java and a practical skill set to create robust, efficient, and secure Java applications.

Working in a skills-immersive, hands-on learning environment led by our expert instructor, you'll explore the intricacies of the Java platform and the Java Standard Edition, working seamlessly with the Java Development Kit (JDK), and using the development environment (IDE) proficiently. The course emphasizes best practices in OO development, reinforcing core object-oriented principles such as inheritance, polymorphism, interfaces, and abstract classes, allowing you to design software applications, develop back-end systems, or contribute to enterprise-level projects.

The course centers around applying these skills to real-world challenges, ensuring you can leverage them in your role or project right after class. Throughout the course you'll build applications, create subclasses, and develop custom exception handling. You'll also gain proficiency in using Java's arrays, records, packages, and utility classes. The course also delves into the advanced features of Java programming, including working with generics, understanding functional programming with lambda expressions, and using the Collection API. You'll be proficient in the JDK, be able to navigate your course IDE, and will be able to develop complex Java programs.

You'll exit this course equipped with the skills required to tackle a variety of programming challenges and create efficient, robust Java applications with ease.
