Overview

Introduction to HTML5/CSS3 and Responsive Design is a two-day course crafted to enhance your web development skills. In this course, you'll immerse yourself in the world of HTML5, gaining proficiency in creating structured, semantic web content. This knowledge is essential for improving website accessibility and search engine rankings. Alongside HTML5, you'll delve into the artistic world of CSS3, learning to design visually stunning and responsive websites. These skills are vital for building sites that not only captivate the eye but also function seamlessly across a variety of devices, ensuring an optimal user experience. The course is structured to provide plenty of hands-on practice, enabling you to apply your newly acquired skills in real-time. You'll engage in interactive labs, where you'll harness HTML5's robust features and CSS3's versatile styling techniques. This approach is pivotal in equipping you with the practical know-how to overcome typical web design challenges, empowering you to craft websites that are both aesthetically pleasing and highly functional. You'll also explore the interplay between HTML5 and CSS3, understanding how to use CSS3's advanced features in conjunction with HTML5. This includes adapting to varying degrees of browser support and employing Responsive Web Design techniques to ensure your websites adapt fluidly to different screen sizes and delivery channels. You'll also delve into effective debugging methods, utilizing both browser-based and proxy-based tools to refine and enhance your web development projects.
