

Mastering User Experience (UX) Design for Experienced Web Developers (TT4213)

Price: 2195

Duration: 3 days

Delivery Methods: Virtual

Overview

About this Course

In today's fast-paced digital world, user-centric and adaptable websites are no longer a luxury – they're a necessity. By embracing UX and responsive design, you'll unlock the potential to elevate your websites, boosting user satisfaction and engagement. This, in turn, leads to higher conversion rates and a stronger online presence for your clients or organization, as well as better collaboration within your team, bridging the gap between designers, developers, and stakeholders.

UX Design & Responsive Design for Experienced Web Developers is a three day, engaging hands-on workshop designed to equip you with the latest skills and best practices in User Experience (UX) and Responsive Web Design required to create seamless, user-friendly websites that adapt effortlessly across devices. This course will immerse you in the latest skills, best practices, and hands-on activities, empowering you to create exceptional, accessible websites that excel across devices and captivate users.

Throughout the program you'll explore the fundamentals of UX and responsive design, including user-centered design processes, mobile-first and desktop-first approaches, and design techniques for various devices and screen sizes. You'll gain practical experience creating responsive layouts, optimizing performance, and implementing accessible web designs, all while leveraging popular frameworks and design tools. You'll also gain valuable insights into performance optimization, accessibility, and collaboration strategies, ensuring you have the complete toolkit to excel in your field.

By the end of this workshop, you'll have gained a solid understanding of UX and responsive design principles, as well as hands-on experience in applying these concepts to real-world projects. You'll be able to create more user-friendly, responsive, and accessible websites, and collaborate more effectively with your design and development teams.

Prerequisites

- Proficiency in HTML and CSS: Participants should have a strong understanding of HTML and CSS, including the ability to create semantic markup, style web elements, and apply basic styling concepts such as the box model, positioning, and the cascade.
- Familiarity with JavaScript: Participants should have a basic understanding of JavaScript and its role in web development, including concepts like variables, functions, loops, and events. Although the course will not focus heavily on JavaScript, a foundational knowledge of the language will help participants grasp some of the more advanced UX and responsive design concepts.
- Experience in Web Development: Participants should have prior experience in developing websites or web applications, as the course builds upon existing web development knowledge and focuses on introducing UX and responsive design principles. This experience may include working on personal, professional, or open-source projects, or having completed a web development course or certification program.

FAQ

What if I have to reschedule my class due to conflict?

Ten (10) business days' notice is required to reschedule a class with no additional fees. Notify TOPTALENT LEARNING as soon as possible at 469-721-6100 or by written notification to info@toptalentlearning.com to avoid rescheduling penalties.

How do I enroll for this class?

Please contact our team at 469-721-6100; we will gladly guide you through the online purchasing process.

What happens once I purchase a class?

You will receive a receipt and an enrollment confirmation sent to the email you submitted at purchase. Your enrollment email will have instructions on how to access the class. Any additional questions our team is here to support you. Please call us at 469-721-6100.

What is your late policy?

If a student is 15 minutes late, they risk losing their seat to a standby student. If a student is 30 minutes late or more, they will need to reschedule. A no-show fee will apply. Retakes are enrolled on a stand-by basis. The student must supply previously issued courseware. Additional fees may apply.

What happens when I finish my class?

You will receive a 'Certificate of Completion' once you complete the class. If you purchased an exam voucher for the class, a team member from TOPTALENT LEARNING will reach out to discuss your readiness for the voucher and make arrangements to send it.
