

NISTv2.0: Integrating NIST Frameworks (ERM/CSF/RMF)

Price: 2395

Duration: 3 days

Delivery Methods: Virtual

Overview

This three-day Integrating NIST Frameworks (ERM/CSF/RMF) course helps students to understand the background and integration of several key frameworks from the National Institute of Standards and Technology (NIST). The course explains the background and application of NIST's Cybersecurity Framework (CSF) version 2.0, Enterprise Risk Approach, and Risk Management Framework (RMF), and their relationship to other NIST models such as those for Cybersecurity Workforce, Privacy Risk Management, and Cybersecurity Supply Chain Risk Management (C-SCRM). Discussion also addresses NIST Special Publication 800-171, Protecting Controlled Unclassified Information in Nonfederal Systems and Organizations, that many private organizations must apply within their own operations.

Using CSF's proven components (updated in 2024) as a way to organize risk expectations, outcomes and communication, the course explains the interaction among mission objectives and priorities, risk management through the language of business, and application of those objectives for managing risk for business systems and services.

The course is developed and delivered by one of the primary CSF authors and includes materials help students to apply the CSF principles to treat cybersecurity risk management as an enterprise practice. The course helps security teams understand how to manage risk in light of executives' priorities, and it helps leaders apply the necessary privacy & security enablers to be prepared for an ever-evolving cybersecurity risk landscape.

Note that although this course has been developed and will be delivered by an engineer that participated in numerous NIST projects, NIST itself does not deliver or endorse any formal courses about their risk management or cybersecurity initiatives.

At Course Completion

Outline

Section 1 - Course Introduction

Section 2 - The Basics of Cybersecurity Risk Management

Section 3 - Introduction to the NIST Cybersecurity Framework v2.0

Section 4 - Detailed Review of the Framework Core

Section 5 - Organizational Assessment through the Framework Implementation Tiers

Section 6 - Planning and Recording Organizational Outcomes through Framework Profiles

Section 7 - The Cybersecurity Framework Five-Step Process

Section 8 - Introduction to the NIST Risk Management Framework

Section 9 - Integration of CSF and RMF with Other Key Frameworks

Section 10 - Applying NIST Frameworks to Real-World Cybersecurity

Why Professionals Choose TOPTALENT?

Dedicated Texas-Based Support

Get assistance every step of the way from our **Texas-based team**, ensuring your training experience is hassle-free and aligned with your goals.

3000+ Curated Professional Courses

Access an extensive portfolio of over 3000 courses across IT, Business Application and Leadership –
Designed to meet evolving Industry demands

95% Client Approval Rating

Trusted by professionals nationwide our 95% approval rating reflects consistent quality, measurable impact and exceptional service.

Certified Industry Instructor

Learn from professionally certified experts with real world experience and a proven commitment to learner success.

FAQ

What if I have to reschedule my class due to conflict?

Ten (10) business days' notice is required to reschedule a class with no additional fees. Notify TOPTALENT LEARNING as soon as possible at 469-721-6100 or by written notification to info@toptalentlearning.com to avoid rescheduling penalties.

How do I enroll for this class?

Please contact our team at 469-721-6100; we will gladly guide you through the online purchasing process.

What happens once I purchase a class?

You will receive a receipt and an enrollment confirmation sent to the email you submitted at purchase. Your enrollment email will have instructions on how to access the class. Any additional questions our team is here to support you. Please call us at 469-721-6100.

What is your late policy?

If a student is 15 minutes late, they risk losing their seat to a standby student. If a student is 30 minutes late or more, they will need to reschedule. A no-show fee will apply. Retakes are enrolled on a stand-by basis. The student must supply previously issued courseware. Additional fees may apply.

What happens when I finish my class?

You will receive a 'Certificate of Completion' once you complete the class. If you purchased an exam voucher for the class, a team member from TOPTALENT LEARNING will reach out to discuss your readiness for the voucher and make arrangements to send it.
