Overview

The duration of this course is 40 hours, and it is eligible for 40 CE credits towards recertification.

The Conducting Threat Hunting and Defending using Cisco Technologies for Cybersecurity (CBRTHD) training introduces and guides you to a proactive security search through networks, endpoints, and datasets to hunt for malicious, suspicious, and risky activities that may have evaded detection by existing tools. In this training, you will learn the core concepts, methods, and processes used in threat hunting investigations. This training provides an environment for attack simulation and threat hunting skill development using a wide array of security products and platforms from Cisco and third-party vendors.

This training prepares you for the 300-220 CBRTHD v1.0 exam. If passed, you earn the Cisco Certified Cybersecurity Specialist – Threat Hunting and Defending certification and satisfy the concentration requirement for the Cisco Certified Cybersecurity Professional certification.
