Introduction to 802.1X Operations for Cisco Security Professionals (802-1X)

Price: 1995

Duration: 3 days

Delivery Methods: Virtual

Overview

The **Introduction to 802.1X Operations for Cisco Security Professionals** (802.1X) v3.1 shows you how to configure and prepare to deploy Cisco® Identity-Based Networking Services (IBNS) solutions based on Cisco Identity Services Engine (ISE), Cisco Catalyst switches, and Cisco Wireless LAN Controllers. You will learn the fundamentals of the 802.1X protocol and configuration, Cisco IBNS, configuring access for non-supplicant devices, Cisco ISE deployment options, architectural components, considerations with 802.1X, and more. You will also gain hands-on experience configuring 802.1X–based network services using the Cisco Identity Services Engine and a Cisco Catalyst switch.

This class will help you:

- Learn about and practice configuring Cisco Identity-Based Networking Services solutions at your own pace
- Build your skills using Cisco Identity-Based Networking Services (IBNS) to secure network connectivity and resources

Prerequisites:

The knowledge and skills that the learner should have before attending this course are as follows:

- Cisco wireless LAN controllers
- Basic command-line configuration of Cisco Catalyst switches
- Microsoft Windows Server Active Directory

Following are some recommended Cisco learning offerings that can help you meet these prerequisites:

- Cisco CCNA$^®$ Security Certification training
- Cisco CCNA Routing and Switching Certification training
- Cisco CCNA Wireless Certification training

Course Objectives:

Upon completion of this course, the learner will be able to meet these overall objectives:

- Describe Cisco Identity-Based Networking Services (IBNS) for providing access control to corporate networks
- Describe Extensible Authentication Protocol (EAP) authentication types and methods, and the role of Remote Authentication Dial-In User Service (RADIUS) in EAP communications
- Describe how to configure Cisco Catalyst switches, Cisco Wireless LAN Controllers (WLCs), and Cisco ISE for 802.1X operation
- Describe how to configure access for non-supplicant devices in an 802.1X deployment
- Describe how to plan and deploy Cisco IBNS Networks with Cisco ISE and 802.1X

Who Should Attend

The primary audience for this course is as follows:

- Security architects
- Design engineers
- Network engineers
- Cisco integrators and partners

Course content

Describing Cisco Identity-Based Networking Services

- Cisco IBNS Overview
- Authentication, Authorization, and Accounting (AAA) Role in Cisco IBNS
- Compare Cisco IBNS and Cisco ISE Solutions
- Explore Cisco IBNS Architecture Components
- Explore Cisco TrustSec

Describing 802.1X EAP Authentication

- Explore the IEEE 802.1X Standard

- Explore 802.1X and EAP

- Explain EAP Methods

- Describe the Role of RADIUS in EAP Communications

Configuring Devices for 802.1X Operation

- Identify 802.1X Components and Topologies

- Configure Cisco Catalyst Switch for 802.1X

- Compare IBNS 1.0 and 2.0 on Cisco Catalyst Switch

- Configure Cisco WLC for 802.1X

- Configure Cisco ISE for 802.1X

- Configure Supplicants for 802.1X Operation

Configuring Access for Non-Supplicant Devices

- Configure Cisco IBNS for Non-Supplicant Devices

- Explore IBNS 2.0 for Non-Supplicant Devices

- Configure Cisco Central Web Authentication for Guests

Designing Cisco IBNS Networks with Cisco ISE and 802.1X

- Cisco ISE Architectural Components

- Introducing the Cisco ISE Bring Your Own Device (BYOD) Process

- Identify Cisco ISE Deployment Options

- Identify Component Compatibilities with 802.1X

- Review 802.1X Design Considerations

Why Professional Choose TOPTALENT?

Dedicated Texas-Based Support

Get assistance every step of the way from our **Texas-based team**, ensuring your training experience is hassle-free and aligned with your goals.

3000+ Curated Professional Courses

Access an extensive portfolio of over 3000 courses across IT, Business Application and Leadership – Designed to meet evolving Industry demands

95% Client Approval Rating

Trusted by professionals nationwide our 95% approval rating reflects consistent quality, measurable impact and exceptional service.

Certified Industry Instructor

Learn from professionaly certified experts with real world experience and a proven commitment to learner success.

FAQ

What if I have to reschedule my class due to conflict?

Ten (10) business days' notice is required to reschedule a class with no additional fees. Notify TOPTALENT LEARNING as soon as possible at 469-721-6100 or by written notification to info@toptalentlearning.com to avoid rescheduling penalties.

How do I enroll for this class?

Please contact our team at 469-721-6100; we will gladly guide you through the online purchasing process.

What happens once I purchase a class?

You will receive a receipt and an enrollment confirmation sent to the email you submitted at purchase. Your enrollment email will have instructions on how to access the class. Any additional questions our team is here to support you. Please call us at 469-721-6100.

What is your late policy?

If a student is 15 minutes late, they risk losing their seat to a standby student. If a student is 30 minutes late or more, they will need to reschedule. A no-show fee will apply. Retakes are enrolled on a stand-by basis. The student must supply previously issued courseware. Additional fees may apply.

What happens when I finish my class?

You will receive a 'Certificate of Completion' once you complete the class. If you purchased an exam voucher for the class, a team member from TOPTALENT LEARNING will reach out to discuss your readiness for the voucher and make arrangements to send it.
