

Oracle DBA II Mastery: Advanced Administration & Recovery (TTOR20530)

Price: 2295

Duration:

Delivery Methods: Virtual

Overview

Overview

This advanced boot camp guides you through Oracle Database Administration II (1Z0-083) topics. You will master multitenant architecture, backup/recovery strategies, patching/upgrading, performance tuning, RMAN, and diagnostics. You will work in hands-on labs with real Oracle environments. After the course you will be able to manage CDBs/PDBs, perform recovery, apply patches, troubleshoot RMAN, and optimize performance.

Objectives

- Configure, manage, clone, and plug/unplug CDBs and PDBs
- Control resource usage and connectivity in a multitenant environment
- Plan and execute backups, restores, and flashback strategies using RMAN
- Duplicate databases, transport data, and patch the Oracle infrastructure
- Perform upgrades and manage Grid Infrastructure / Oracle Restart
- Diagnose failures, tune RMAN, use AWR/ADDM, and optimize SQL performance

Audience

- Senior DBAs
- Architects managing multitenant deployments

Pre-Reqs

- Strong Oracle DBA I experience
- Familiarity with SQL and OS administration

Agenda

1) Multitenant Architecture & CDB / PDB Management

- Concepts: CDBs, PDBs, application containers, root, seed
- Creating CDBs and PDBs (from seed, cloning)
- Plugging/unplugging PDBs, relocating, cloning
- PDB service names, initialization parameters
- Resource Manager for CDBs / PDBs, resource plans

Lab

- Create a CDB, seed PDB, new PDB from seed
- Clone a PDB, unplug and plug it to another container
- Configure PDB service names
- Use Resource Manager to limit CPU or memory to PDBs

2) Security & Policy in Multitenant Environments

- Managing security in CDB and PDB layers
- PDB lockdown profiles
- Audit configuration across containers
- Policies in application containers

Lab

- Apply a lockdown profile to a PDB
- Set up audits (login, DDL) at container scope
- Create and apply container policies

3) Backup, Recovery & Flashback

- RMAN fundamentals (full, incremental, cumulative)
- Backup strategies: compression, encryption, multiplexing
- Flashback features: DB flashback, PDB flashback
- Recovery scenarios: complete, point-in-time, media failure

Lab

- Configure RMAN backups, test restores
- Use flashback to undo data corruption
- Recover a PDB and a CDB after failure

4) Database Duplication & Data Transport

- Duplicate databases and PDBs (RMAN duplicate)
- Transportable tablespaces and transportable PDBs
- Data movement across platforms

Lab

- Duplicate a live PDB or CDB using RMAN
- Transport a tablespace or PDB to a different container or host

5) Upgrades, Patching & Grid Infrastructure

- Oracle software installation and patching strategies
- Upgrading CDB/PDBs (manual and automatic)
- Oracle Grid Infrastructure, Oracle Restart
- Rolling upgrades in multitenant

Lab

- Patch Oracle software and apply DB PSU
- Upgrade a database version within multitenant
- Configure Oracle Restart and verify auto start

6) Performance Monitoring & RMAN Tuning

- AWR, ADDM, advisory framework
- Wait events, metrics, threshold alerts
- SQL tuning: optimizer, statistics, SQL Tuning Advisor
- RMAN message interpretation and tuning

Lab

- Run AWR reports, analyze top wait events
- Use SQL Tuning Advisor on a sample SQL
- Capture RMAN logs, diagnose performance bottlenecks

7) Diagnostics, Failure Analysis & Wrap-Up

- Common failure scenarios and diagnostic methods
- Data block corruption detection and repair
- Using DBVERIFY, RMAN validate, block recovery
- Exam review, integrated workflows

Lab

- Intentionally corrupt a block and repair
- Use RMAN VALIDATE, recovery catalog validation
- Complete an end-to-end exercise: setup CDB/PDB, backup, failure, recovery, tuning

Why Professional Choose TOPTALENT?

Dedicated Texas-Based Support

Get assistance every step of the way from our **Texas-based team**, ensuring your training experience is hassle-free and aligned with your goals.

3000+ Curated Professional Courses

Access an extensive portfolio of over 3000 courses across IT, Business Application and Leadership - Designed to meet evolving Industry demands

95% Client Approval Rating

Trusted by professionals nationwide our 95% approval rating reflects consistent quality, measurable impact and exceptional service.

Certified Industry Instructor

Learn from professionally certified experts with real world experience and a proven commitment to learner success.

FAQ

What if I have to reschedule my class due to conflict?

Ten (10) business days' notice is required to reschedule a class with no additional fees. Notify TOPTALENT LEARNING as soon as possible at 469-721-6100 or by written notification to info@toptalentlearning.com to avoid rescheduling penalties.

How do I enroll for this class?

Please contact our team at 469-721-6100; we will gladly guide you through the online purchasing process.

What happens once I purchase a class?

You will receive a receipt and an enrollment confirmation sent to the email you submitted at purchase. Your enrollment email will have instructions on how to access the class. Any additional questions our team is here to support you. Please call us at 469-721-6100.

What is your late policy?

If a student is 15 minutes late, they risk losing their seat to a standby student. If a student is 30 minutes late or more, they will need to reschedule. A no-show fee will apply. Retakes are enrolled on a stand-by basis. The student must supply previously issued courseware. Additional fees may apply.

What happens when I finish my class?

You will receive a 'Certificate of Completion' once you complete the class. If you purchased an exam voucher for the class, a team member from TOPTALENT LEARNING will reach out to discuss your readiness for the voucher and make arrangements to send it.
