Overview

Leading AI Adoption is a one-day, immersive program designed for organizational leaders seeking to drive impactful change through artificial intelligence. This course equips decision-makers with the strategic insights and practical tools needed to integrate AI across departments, enhance operations, and foster a culture of innovation. Through a mix of lectures, case studies, and interactive exercises, participants will explore real-world applications of AI and develop a leadership roadmap to guide successful AI adoption across their organization.

Objectives

- Understand how AI technologies like machine learning, automation, and analytics can transform organizational strategy.
- Identify and map AI opportunities to improve data-driven decision-making across departments.
- Lead diverse teams through the AI adoption process and overcome common barriers to change.
- Align AI initiatives with broader business goals to create a future-ready organization.
- Evaluate practical AI tools for operational efficiency, customer engagement, and innovation.
- Develop and implement an AI adoption roadmap tailored to their department or organization.
- Measure the impact of AI initiatives and plan for scalable, long-term transformation.

Audience

- C-suite Executives (CEO, CIO, CTO, CDO, CFO)
- Vice Presidents and Managing Directors

- Business Unit Leaders
- Strategic Advisors and Innovation Officers

Prerequisites

While the course is designed to be accessible for participants of varying experience levels, having some technical familiarity will enhance the learning experience and enable attendees to engage more effectively with hands-on activities and advanced topics.
