VMware Cloud Foundation: Troubleshooting [V9.0] (VCFT9)

Price: 4850

Duration: 5 days

Delivery Methods: Virtual

Overview

About the course

This comprehensive five-day hands-on training is designed to provide you with the knowledge, skills, and abilities to

achieve competence in troubleshooting the VMware Cloud Foundation® (VCF) 9.0 environments. This course blends

lecture and hands-on lab exercises to deliver advanced skills to diagnose and resolve problems in VMware Cloud

Foundation 9.0 environments. This course also focuses on investigating and resolving problems and analyzing log files to

help you recognize log file entries that identify root causes.

Course Objectives

By the end of the course, you should be able to meet the following objectives:

● Describe the VCF solution

● Describe the VCF architecture and components

● Describe the deployment model based on the existing infrastructure

● Explain the troubleshooting methodology to resolve common validation precheck errors

● Identify and use the correct logs to troubleshoot VMware Cloud Foundation (VCF) Installer

● Describe the license assignment process for connected and disconnected deployments

● Identify the log file and log locations for VCF licensing components

● Explain the workload domain creation workflow

● Troubleshoot network pool creation

● Troubleshoot VMware® ESX® host commissioning

● Monitor VMware vSAN™ health using the VMware Cloud Foundation® Operations console

● Monitor vSAN Health using vSphere Client

● Monitor network operations

● Analyze flows and network performance

● Describe central password management in VCF Operations

● Monitor password expiration

● Describe the architecture and components of the VMSP cluster

● Identify key log files to troubleshoot the VMSP cluster provisioning

● Identify key kubectl commands and logs to check the health status of the VMSP cluster

● Generate, download, and review the structure of the VMware Cloud Foundation® Automation support log bundle

Course content

1. Course Introduction

2. Troubleshooting VCF Deployment

3. Troubleshooting Upgrades

4. Troubleshooting License

5. Workload Domain Troubleshooting

6. Troubleshooting VMware Cloud Foundation Compute

7. Troubleshooting VCF vSAN Storage

8. Troubleshooting VMware Cloud Foundation Networking

9. Troubleshooting VCF Operations Fleet Management

10. Troubleshooting VMware Cloud Foundation Automation

Who Should Attend

System Administrators, Solution Engineers, Consultants, and Support Personnel

FAQ

What if I have to reschedule my class due to conflict?

Ten (10) business days' notice is required to reschedule a class with no additional fees. Notify TOPTALENT LEARNING as soon as possible at 469-721-6100 or by written notification to info@toptalentlearning.com to avoid rescheduling penalties.

How do I enroll for this class?

Please contact our team at 469-721-6100; we will gladly guide you through the online purchasing process.

What happens once I purchase a class?

You will receive a receipt and an enrollment confirmation sent to the email you submitted at purchase. Your enrollment email will have instructions on how to access the class. Any additional questions our team is here to support you. Please call us at 469-721-6100.

What is your late policy?

If a student is 15 minutes late, they risk losing their seat to a standby student. If a student is 30 minutes late or more, they will need to reschedule. A no-show fee will apply. Retakes are enrolled on a stand-by basis. The student must supply previously issued courseware. Additional fees may apply.

What happens when I finish my class?

You will receive a 'Certificate of Completion' once you complete the class. If you purchased an exam voucher for the class, a team member from TOPTALENT LEARNING will reach out to discuss your readiness for the voucher and make arrangements to send it.
