

# Cortex XDR: Security Operations and Integration (PCXDR-SOI)

**Price:** 2995

**Duration:** 3 days

**Delivery Methods:** Virtual

## Overview

### Course Overview

This 3-day instructor-led course provides in-depth training on Cortex XDR, Palo Alto Networks' powerful extended detection and response platform. You will gain hands-on expertise in security operations, incident investigation, and system optimization to effectively protect modern environments. Throughout this course you will explore the key features of Cortex XDR.

The course is designed to enable cybersecurity professionals, particularly those in SOC/CERT/CSIRT and engineering roles, to use XDR. The course reviews XDR intricacies, from fundamental components to advanced strategies and techniques, including skills needed to configure security integrations, develop workflows, manage indicators, and optimize dashboards for enhanced security operations.

This is an update and replacement for the previous EDU-260 course, specifically intended for the individuals who are responsible for configuring Cortex XDR and managing integrations, data ingestion, and security policies as opposed to the analysts who investigate cases and issues. A retirement date for the EDU-260 and EDU-262 will be announced once the replacement course for EDU-262 is released (date TBA). For now the EDU-260 and EDU-262 will remain available, in addition to this new course offering

### Course Content

Course Modules:

- 0 - Course Overview
- 1 - Overview of Cortex XDR
- 2 - Software Components
- 3 - Integrations
- 4 - XQL
- 5 - Detection Engineering
- 6 - System Optimization
- 7 - Dashboards and Reports

### Who should attend

SOC/CERT/CSIRT/XDR engineers and managers, MSSPs and service delivery partners/system integrators, security consultants and sales engineers.

### Certifications

This course is part of the following Certifications:

- Palo Alto Networks XDR Engineer

### Prerequisites

Attendees should possess a solid understanding of cybersecurity principles, including network and endpoint security concepts.

### Course Objectives

This course is designed to enable you to:

- Describe the role of Cortex XDR components, including endpoint agents, XDR collectors, NGFWs, and Broker VMs, in securing networks and devices.
- Utilize XQL to query and analyze logs for effective data ingestion and threat detection.
- Design and implement workflows to streamline security operations.
- Apply External Dynamic Lists and indicator rules to enforce security policies.

## Why Professionals Choose TOPTALENT?

### Dedicated Texas-Based Support

Get assistance every step of the way from our **Texas-based team**, ensuring your training experience is hassle-free and aligned with your goals.

### 3000+ Curated Professional Courses

Access an extensive portfolio of over 3000 courses across IT, Business Application and Leadership – Designed to meet evolving Industry demands

### 95% Client Approval Rating

Trusted by professionals nationwide our 95% approval rating reflects consistent quality, measurable impact and exceptional service.

### Certified Industry Instructor

Learn from professionally certified experts with real world experience and a proven commitment to learner success.

## FAQ

### **What if I have to reschedule my class due to conflict?**

Ten (10) business days' notice is required to reschedule a class with no additional fees. Notify TOPTALENT LEARNING as soon as possible at 469-721-6100 or by written notification to [info@toptalentlearning.com](mailto:info@toptalentlearning.com) to avoid rescheduling penalties.

### **How do I enroll for this class?**

Please contact our team at 469-721-6100; we will gladly guide you through the online purchasing process.

### **What happens once I purchase a class?**

You will receive a receipt and an enrollment confirmation sent to the email you submitted at purchase. Your enrollment email will have instructions on how to access the class. Any additional questions our team is here to support you. Please call us at 469-721-6100.

### **What is your late policy?**

If a student is 15 minutes late, they risk losing their seat to a standby student. If a student is 30 minutes late or more, they will need to reschedule. A no-show fee will apply. Retakes are enrolled on a stand-by basis. The student must supply previously issued courseware. Additional fees may apply.

### **What happens when I finish my class?**

You will receive a 'Certificate of Completion' once you complete the class. If you purchased an exam voucher for the class, a team member from TOPTALENT LEARNING will reach out to discuss your readiness for the voucher and make arrangements to send it.
