

Prepare Security and Compliance to Support Microsoft 365 Copilot Course (MS-4002)

Price: 695

Duration: 1 days

Delivery Methods: Virtual

Overview

Overview

In today's digital landscape, safeguarding your organization's data while leveraging advanced tools is crucial. This course is designed to empower IT professionals with the knowledge and skills to secure and optimize Microsoft Copilot for Microsoft 365. Through a series of detailed modules, participants will learn about the architecture, implementation, and security compliance of Copilot for Microsoft 365. By the end of the course, students will be adept at extending its capabilities, protecting sensitive information, and ensuring compliance with regulatory standards.

This comprehensive training covers everything from understanding the core components and architecture to practical implementation strategies. Participants will gain hands-on experience in data preparation, license assignment, and the use of advanced security tools. Additionally, the course offers insights into maintaining data security and compliance, making it an essential investment for organizations looking to maximize the benefits of Microsoft Copilot while maintaining robust security protocols.

Audience Profile

This course is ideal for IT administrators, security professionals, and technology managers who are responsible for managing and securing Microsoft 365 services. It is also suitable for professionals tasked with overseeing data protection, compliance, and the implementation of new IT solutions

within their organizations.

Prerequisites

Students should have basic functional experience with Microsoft 365 services and a proficient understanding of general IT practices.

This course has been created by Microsoft as a “Bring Your Own Environment” course, allowing individuals to use their personal devices and settings. If a student wants to complete the hands-on activities, the individual must bring their own CoPilot environment. Otherwise, demonstrations and lectures will be conducted by the instructor

Course Outline

- 1 - Implement Microsoft 365 Copilot**
- 2 - Manage secure user access in Microsoft 365**
- 3 - Manage permissions, roles, and role groups in Microsoft 365**
- 4 - Deploy Microsoft 365 Apps for enterprise**
- 5 - Implement Microsoft Purview Data Loss Prevention**
- 6 - Implement sensitivity labels**
- 7 - Manage Microsoft 365 Copilot extensibility**

FAQ

What if I have to reschedule my class due to conflict?

Ten (10) business days' notice is required to reschedule a class with no additional fees. Notify TOPTALENT LEARNING as soon as possible at 469-721-6100 or by written notification to info@toptalentlearning.com to avoid rescheduling penalties.

How do I enroll for this class?

Please contact our team at 469-721-6100; we will gladly guide you through the online purchasing process.

What happens once I purchase a class?

You will receive a receipt and an enrollment confirmation sent to the email you submitted at purchase. Your enrollment email will have instructions on how to access the class. Any additional questions our team is here to support you. Please call us at 469-721-6100.

What is your late policy?

If a student is 15 minutes late, they risk losing their seat to a standby student. If a student is 30 minutes late or more, they will need to reschedule. A no-show fee will apply. Retakes are enrolled on a stand-by basis. The student must supply previously issued courseware. Additional fees may apply.

What happens when I finish my class?

You will receive a 'Certificate of Completion' once you complete the class. If you purchased an exam voucher for the class, a team member from TOPTALENT LEARNING will reach out to discuss your readiness for the voucher and make arrangements to send it.
